Rolando B. Palang-at Jr

Automation/Performance Tester

639515148319   palangatjrrolando@gmail.com   Halang Naic Cavite

OBJECTIVE

I have expertise creating test scenarios, test cases, test scripts for automation and performance, software testing, and documentation as a Quality Assurance Tester (Manual, Automation, Performance, and Other IT Related Works). I'm searching for a chance to obtain
a job where I can improve my software testing abilities.

EXPERIENCE

Automation/Manual/Performance Tester

Ascendion Digital PH | Makati City

Client: BDO Unibank PH | Ortigas

May 16, 2025 - Present

Key Responsibilities:
  Manual/Automation:
  • Develop automation test scenarios and test cases based on functional requirements utilizing GenAI.
  • Carry out manual testing and execute tests.
  • Record issue in ALM/Jira
  • Utilize Postman to execute API data
  Performance:
  • Created and implemented automated API testing scripts with Apache JMeter for load and endurance testing.
  • Developed Test Plans and Test Cases in accordance with company standards.
  • Worked with the team to collect non-functional requirements for testing purposes.
  • Compiled the Performance Test Completion report based on real results.
  • Performed smoke tests to verify the system's readiness for automated performance testing.
  • Applied performance tuning techniques to enhance system response times.
  • Examined system performance metrics to pinpoint bottlenecks and potential areas for enhancement.

Performance Tester

Ascendion Digital PH | Makati City

Client: BDO Unibank PH | Ortigas

January - March, 2025

Key Responsibilities:
  • Created and implemented automated API testing scripts with Apache JMeter for load and endurance testing.
  • Developed Test Plans and Test Cases in accordance with company standards.
  • Worked with the team to collect non-functional requirements for testing purposes.
  • Compiled the Performance Test Completion report based on real results.
  • Performed smoke tests to verify the system's readiness for automated performance testing.
  • Applied performance tuning techniques to enhance system response times.
  • Examined system performance metrics to pinpoint bottlenecks and potential areas for enhancement.

Automation/Performance Tester

Software Laboratory Inc | Makati City

Client: Saint Luke's Medical Center | Quezon City
